WORK EXPERIENCE

Warner Bros. Discovery • Burbank, CA

Apr 2019 – Jun 2024

Senior Security Analyst : Penetration Testing

- Collaborated with business leaders and IT asset owners to evaluate third-party vendors and new information systems before deployment.
- Led a penetration-testing team that enhanced enterprise-wide threat identification for cloud (AWS, GCP, Azure, VPS), mobile, and television applications.
- Led a Penetration Testing team to a significant increase in enterprise-wide cyber threat identification and mitigation across diverse data systems, including WB Games Properties: Avalanche Software, Netherrealm Studios, Rocksteady, TT Games, and WB Interactive Entertainment.
- Assessments include critical elements such as: security architecture reviews, technical security testing, and control assessment aligned to industry best practices.
- Implemented a mentorship program that improved documentation and team collaboration.
- Reviewed inter-domain policy relationships for Warner Bros. Discovery's corporate network.
